

Google found a golden key.  
Then in an other sketch...

They were back in the doll house!  
Google took the key which him.  
The front door wouldn't open but when  
the key saw the door the door opened.  
And they were back in ~~the~~ ~~the~~ the  
house here house was silent?

Google and Sandy  
wondered if any would  
believe them?
